HANSEN BUSH CHERRY

Bore a Crop Last Year, Will Produce a Heavy Crop This Year

A rapid growing shrub, can be planted singly or in groups, also makes a gorgeous hedge with its snow-white blooms. Bush Cherry is easy to grow and will grow anywhere, producing large delicious plum-shaped cherries, fine for eating fresh from the bush, has a wonderful flavor; excellent for jams. The bush grows four to five feet tall with 3- to 4-ft. spread. Foliage is very attractive, silvery green, turning to red and gold in the fall. These large stocky four-year-old well-branched bushes cannot be compared with the regular sized bushes.

HEAVY, BUSHY, FRUITING SIZE

Loaded With Fruiting Buds.

2½-3 ft., extra vigorous bushes, 75c each; 3 for \$1.50; 6 for \$2.50; 12 for \$4.00; 25 for \$7.50; 50 for \$13.95.

PEACHES

HALE-HAVEN. A cross between South Haven and J. H. Hale. Large, yellow-fleshed Peach. Ripens two weeks before Elberta, perfect freestone; high in color. Often bears second year after planting. Ideal for market or shipping. **PRICES:** 9/16 in., 4 ft. and up, 60c each; 5 at 50c each; 10 at 45c each, 25 at 40c each.

ELBERTA. Universal midseason. Ripens September. Hardy, vigorous grower. Oval-shaped, red cheek, yellow, freestone, excellent canner or shipper. **PRICES:** 9/16 in., 4 ft. and up, 60c each; 5 at 50c each; 10 at 45c each; 25 at 40c each.

RED HAVEN. A brand new Peach with all the good qualities of the familiar South Haven, PLUS a bright red coloring that means extra dollars on early Peach market. **PRICES:** 9/16 in., 4-5 ft., \$1.25 each; 5 for \$5.00; 10 for \$9.00.

Giant Thornless BOYSENBERRY

Bears ten days to two weeks earlier than its parent (Thorny Boysenberry), thus insuring top market prices. The production is even greater than regular Boysenberry which has produced almost six tons per acre.

VINES are smooth, resembling a grape vine with shoots from 15 to 20 feet long. Easy to pick and easy to handle—means a labor-saving not only to the commercial grower but also the home gardener.

FLAVOR is the same wonderful combination of Raspberry, Loganberry and Blackberry. It's of a sensational satisfying taste with unmatched qualifications, something you will long remember in pies, jams, jellies, cordials, canned or fresh. We, being pioneers in Boysenberries, are able to offer you northern grown, healthy, heavy rooted plants, tested and hardened to the northern climate and proven to withstand sub-zero weather splendidly. This is your insurance of absolute success.

NEW! SEEDLESS PEAR

(Patent Pending)

Endorsed by Prof. Ellenwood, Ohio Agricultural Experiment Station. Triumphs in quality and flavor. Every bit a delight! Smooth and melting, juicy, sweet and packed full of rich flavor. No seed. No core. Just solid white Pear all the way through. As large as the largest Bartlett. Waxy yellow skin with russet flecks and red cheek. Easy to can. Serve smooth halves or whole Pears for fine salads and desserts. A practical, high grade fruit for market. Ripens ten days after Bartlett. Trees usually bear when three years old, and produce enormous crops.

Prices: 9/16", 3½-4½ ft. trees, \$1.00 each.

11/16" and over, quick fruiting size, at \$1.25 each. No discount.

STRAWBERRIES

GEM. Giant everbearer. Large berries, red all the way through, very firm. Ripens evenly, extra fine sweet flavor, berries uniform, vigorous plant maker.

MAYTIME. New earliest commercial and garden berry. Vigorous grower, full fruiting row. Beautiful red gloss, resembles Premier only lighter. Keeps luster in holding, does not turn dark. With its beauty, firmness, earliness and quality you cannot miss.

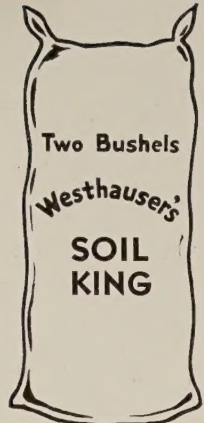

DUNLAP. The old faithful standby. The berries are medium to large, conical, dark crimson, with a deep red flesh, very good quality. Plants very productive, healthy and vigorous. Thrive on all kinds of soil. Best canner known. Ripens a few days after Premier.

FUJIYAMA. New and largest of all Strawberries. Berries measure up to 7 inches around. Best for home use and nearby markets, not firm enough for long shipment. Ripens mid-season to late and holds its size to the end.

Seedless Pear

New!

EARLY WONDER THORNLESS

Trademark Applied For

IT'S EARLIEST AND IT'S THORNLESS

This variety was discovered here in Michigan several years ago by Mr. Henning, who found it growing in a patch of Lathams. Now he grows the Thornless Red Raspberry EXCLUSIVELY. Early Wonder is a combination of tested and proven merits. The large and sturdy plants have silky smooth wood, no stickers. The berries are borne in large, beautiful bright red clusters, and are very firm, excellent shippers. A delicacy either fresh, canned, in preserves and jellies.

Westhauser's SOIL KING

Nature's Own Plant and Soil Builder or Rejuvenator
Your plantings are doubly assured with Westhauser's Soil King, which has been tested and recommended by County Agents, also State Departments of Agriculture who find it has a perfect acidity test. Not only is it highly acid, but it contains all of its original vitamins; it is high in nitrogen, and plant food.

PRICES: 1 bag (2 bus.), \$1.00; 2 bags (4 bus.), \$1.90; 5 bags (10 bus.), \$4.00; 11 bags (22 bus.), \$8.00.

Blueberry Grower

This acid Peat will hold 15 to 20 times its weight in water, and contains the fertilizer value that Blueberries and evergreens need. We recommend this product for any plant that requires an acid sour soil.

PRICES: 1 bag (2 bus.), \$1.00; 2 bags (4 bus.), \$1.90; 5 bags (10 bus.), \$4.00; 11 bags (22 bus.), \$8.00.

GIANT HYBRID BLUEBERRIES

ONCE PLANTED LAST A LIFETIME—Profitable and Ornamental

The Cultivated Blueberry produces juicy, delicious berries two to three times as large as common Blueberries, resembling in size a bunch of Delaware grapes, and selling for 40c to 60c a quart.

They are beautiful ornamental bushes reaching 8 to 10 feet in height with pinkish white, bell-shaped blossoms, and long, narrow, dark green foliage that turns coppery red in fall. An improvement in every home planting.

CROSS POLLENIZATION. At least **two plants** should be planted for cross pollenization.

Every farm has an ideal location adapted for cultivated Blueberries; however, if not, home and commercial planting adaptations are easily created. The soil has to be moist, loose and contain acid; after digging your hole take the top soil and mix half and half with leaf mold, marsh soil, rotten straw or vegetable refuse. We also recommend a handful of sulphate of Ammonia around the plants in the spring. This can be purchased from your local feed or hardware store.

In our Michigan fruit belt, farmers are making big profits and are extensively planting large acreages. Get in on the big money! Get started now!

5-YEAR TRANSPLANTS 2 1/4 to 3 ft.

Averaging about 50% more berries than a 4-year bush.

For quick results and a good crop of berries this year plant these plants. Investment paid in a short time. Big money later. Five-year transplants, as an average, bear 50% more fruit than the 4-year-old plants. Considering a bush has reached full maturity at nine years, a five-year bush is well on its way and often pays more than its cost the first year.

Red Lake Currant

Out-Bears Others Two to One

Double your crop and profits by raising these big, very productive Currants. The bushes are thrifty and exceptionally hardy, very easy to grow. The berries are a pleasure to pick, being large, dark red in color, and on long, well-filled bunches. Originated in the Northwest where the temperature reaches 40 below zero. They ripen in early midseason and last over a long period. Order early: supply limited. 2-yr., No. 1 plants, 50c each; 3 for \$1.25; 10 for \$2.90; 25 for \$5.90; 100 for \$22.50.

Downing Gooseberry

Large, green fruit, fine sweet flavor, best shipper and canner. Very thrifty grower. 2 yr., No. 1 plants, 50c each; 3 for \$1.25; 10 for \$2.90; 25 for \$5.90; 100 for \$22.50.

Thornless DEWBERRY

Another amazing discovery in the Thornless family. Easy to pick, easy to handle (no stickers), hardy, thrifty, succeeds anywhere. Berries are large, glossy black, sweet and juicy. Extra delicious fresh, in pies, jams and jellies; makes excellent wine.

PRICES: 1-yr., 35c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

PRICES: 2-yr., \$1.00 each; 3 for \$1.75; 6 for \$3.00; 12 for \$5.00.

INDIAN SUMMER

The Giant Everbearing Red Raspberry

Two Crops in One Year!

12 Extra Large Plants Only \$1.75

The Double Bearing and Double Profit Red Raspberry

It bears a full crop in June and another in the fall. The berries are long, deep red, small cavity, very rich in flavor. The plants are hardy, tall and in production they will par or outyield any red. Very good fresh, canning and shipping quality.

MacDonald Rhubarb

The last word in Rhubarb. In describing this variety, Prof. L. G. Bunting, of MacDonald College, in Quebec, Can., where it originated, states: "It is a very highly colored, attractive red stalk, of large size, productive, very tender and succulent, and of excellent quality, and particularly valuable for pies and desserts. Its color, when cooked without peeling, is as attractive as that of Raspberries." Not grown from seed. Plants propagated from divisions. Try some this year. You'll like it. 40c each; 3 for \$1.00; 6 for \$1.50; 10 for \$2.90. For larger plantings, write for special quotations.

LATHAM

(Midseason)

- The Standard
- Most Profitable
- Commercial Red Raspberry

Best medium to late variety, has made good in all sections of the country. Was originated in Minnesota; does not winter-kill even at 45 degrees below zero. Large, beautiful, rich dark red berries often an inch in diameter, firm, excellent for canning, shipment and table use.

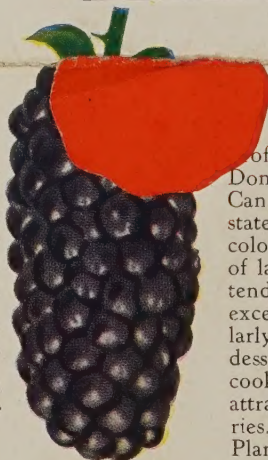

PRICES: 1-yr. fancy red raspberry, 25 for \$1.40; 50, \$2.25; 100, \$3.50; 250, \$8.50; 400, \$12.00; 1000, \$26.00.
